PROFILE

Creative Front-end Developer with a knack for turning design visions into interactive and user-friendly websites. Recently graduated from Brainster's rigorous academy, where I mastered the art of coding. Eager to contribute my skills in crafting visually stunning and functionally robust digital experiences.

- UI/UX
- React
- Next
- TypeScript
- jQuery & AJAX
- Blazor
- C#
- GIT
- Scrum

CERTIFICATIONS

- **Front end Developer**
- **Quering Data with Microsoft Transact – SQL**
- **Basics and Advanced C#**
- **IT Academy**

PROFESSIONAL EXPERIENCE

Programmer
Makeptrol, May 2023 - Present

▪ Spearheaded the adoption of cutting-edge technologies, mastering the Blazor framework to enhance the development landscape.
▪ Led the transformation of an existing program, conceptualizing and implementing a revamped version using the innovative capabilities of Blazor.
▪ Successfully delivered the new version on schedule, garnering positive feedback for its improved performance and enhanced user interface.

PROJECTS

- **Brainster Labs** - this is my first project from Brainster, simple project made with HTML & CSS, little JS for filtering cards.
- **Street Artists** - second project from Brainster Academy for selling, bidding, upload arts, made for Street Artists
- **Krik** - this project is for Krik, maybe one of the most interesting projects in my career. Krik is a non-profit organization established to improve the investigative journalism.

ADDITIONAL SKILLS

▪ Proven ability to collaborate effectively in cross-functional teams, fostering positive and productive work environment

▪ Excellent verbal and written communication skills, ensuring clear and concise interaction with team members.

▪ Quick to adapt to new environments and technologies, ensuring a seamless integration into diverse project landscapes.

▪ Thrives in dynamic work settings and embraces challenges as opportunities for growth.

▪ Adaptable mindset, capable of finding innovative approaches to enhance project outcomes.
